

Sewing order 'Lopmon'

This file is an ITH (in the hoop) pattern

1 pin stitch water soluble stabilizer *

2 pattern

3 eyes black

4 eyes white

5 decoration** body

6 position grosgrain***

7 fix grosgrain ***

8 keychain border

* If you use fabric without fur (fleece, cotton) skip this point.

** thread color need to be nearly same as fabric color

*** without grosgrain you'll get a cute tiny plushie

In addition some short explanations about used designations in the description:

The „**position**“ marks the applique area. Next step: put on the fabric and fix it with the „**border**“ on the main fabric. Now you have to cut the producing fabric with (applique-)scissors away. To finalize the applique use the „**decoration-border**“ to get a clean look.

Last step is the „**keychain border**“. Put your backside fabric (fabric front kiss your embroidered fabric) on your embroidery and stitch it out.

The **colored dot** on the top`s right side is the current threadcolor.
