PATTERN

Memory Bear and Bunny

PAPER SIZE: US LETTER (8.5 X 11 INCHES)

Wings Pattern Studio

**Planet-friendly reminder:**

This PDF has 82 pages. Please consider the environment before printing all of them.

Kindly print only the pattern pages in the desired size.

We don't know if it helps to reduce waste, but we know it's worth trying.

Printing

Once you download the PDF file – save it to your computer. Use Adobe Acrobat Reader DC software to view and print the pattern.

You can download a FREE version at <http://get.adobe.com/reader/>

! Do not use Mac Preview, your internet browser or the version of the Adobe reader that comes with the Windows 10 update.

Printing a PDF Pattern is like printing other documents. First, open the PDF pattern and afterwards choose File and Print. The printing dialogue box opens up, make sure to set the print scale at 100% and actual size.

! Do NOT check “scale to fit” nor fit to page.

* The labels in your dialog box may vary, but those are the most common options.

You print on one side only as you will be cutting your pattern pieces later.

Before printing the entire pattern, print only this page first to check and measure that the 4 inches/10.2 centimetres test square. If it does not measure correctly check your print scaling options.

Sewing with PDF patterns

Cut out the pattern pieces and use them just like you would with regular paper patterns. When a pattern piece consists of multiple parts, make sure to connect them together using the numbered triangular marks as a guide. Match up these marks on each part of the piece to see how they fit together. Use clear tape or a glue stick to join the piece securely. It's important to ensure that everything is aligned neatly before moving forward with your sewing project.
